OBJECTIVE

Dedicated Full Stack Developer with hands-on experience in the MERN stack, passionate about transforming ideas into intuitive, responsive, and high-performing web applications. Proficient in both frontend and backend development, with expertise in building scalable server-side architectures, designing efficient databases, and delivering reliable, maintainable solutions that adapt seamlessly to evolving business requirements.

SKILLS

Languages	C++, JavaScript, SQL, Java
Concepts	OOP, Data Structures & Algorithms, DBMS
Web Development	React.js, Node.js, Express.js, MongoDB, PostgreSQL
Version Control	Git, GitHub
Soft Skills	Critical Thinking, Teamwork, Time Management, Adaptability, Problem Solving

Proof of Work

Worked as a Full Stack Web Developer (International) | Oct 2025 - July 2026

- Developed a custom website for foundation campaigns to enhance outreach and digital presence.
- Engineered an online courses streaming platform for the foundation's academy, enabling seamless content delivery and user engagement.

PROJECTS

Cricket Academy — Foundation & Academy Platform | *Next.js, Express, Node.js, MongoDB*

[Live Site](#) | [GitHub Repo](#)

- Developed a full-stack cricket academy management platform with role-based access, subscription tracking, and real-time notifications to streamline academy operations.
- Engineered a secure RESTful backend using Node.js, Express, TypeScript, and MongoDB, implementing JWT authentication, Zod validation, and Cloudinary integration.
- Built an admin dashboard for inquiry management, subscription control, and user suspension, and containerized the application using Docker to ensure consistent deployment across environments.

Hotel Management Website | *React, Node.js, Express, MongoDB*

[Live Site](#)

- Developed a comprehensive hotel management platform enabling users to browse available rooms, view amenities, and make online reservations seamlessly, integrating Razorpay payment gateway for secure booking transactions.
- Built responsive frontend interfaces using React and designed RESTful backend API services with JWT authentication and role-based access control (RBAC) supporting Super Admin, Hotel Admin, Hotel Manager, and Guest User roles to manage booking schedules, guest profiles, and room availability.
- Deployed the frontend web application on Vercel and hosted the backend API services on Render.

EDUCATION

Techno International New Town, Kolkata (Graduated)

Sep 2022 – July 2026

B.Tech in Computer Science and Engineering

CGPA: 7.98

Siliguri Boys' High School (WBCHSE)

2021

12th — Science

Percentage: 89.6%

Nilmalini Vidyamandir (WBBSE)

2019

10th — General

Percentage: 91.57%

Achievements

- Selected in the top 5 teams in Smart India Hackathon (SIH) Internal Round 2024.
- Secured a Top 10 position among 100+ participating teams at HackNova 2025 for designing a scalable full-stack application.
